

**CPARS** is a web-enabled application that collects and manages the library of automated CPARS. CPARS is for UNCLASSIFIED use only. Classified information is not to be entered into this system. A CPAR assesses a contractor's performance and provides a record, both positive and negative, on a given contractor during a specific period of time. Each assessment is based on objective facts and supported by program and contract management data, such as cost performance reports, customer comments, quality reviews, technical interchange meetings, financial solvency assessments, construction/production management reviews, contractor operations reviews, functional performance evaluations, and earned contract incentives.
